## 2022 Board Retreat

### Background

On Monday, February 28, 2022, members of the Barringer Woods Community Association participated in the virtual Neighborhood Board Retreat facilitated by the City of Charlotte. The following board members and/or community members participated in the retreat:

- Michael Pompey
- Michael Scott
- Pattye McGowan
- Robin Cole

The City of Charlotte values citizen leadership and its ability to make an impact in the communities, in which we all live, work, play and shop. With this in mind, the board retreat process was initiated to help neighborhood-based organizations develop strategic plans to improve quality of life in their communities.

### Purpose

The purpose of the board retreat was to

- Generate meaningful conversations around improving quality of life in our community
- Outline a direction for the future of the neighborhood that represents the needs and desires of current and future residents
- Set clear goals and priorities for the upcoming year(s)

By participating in the retreat, our board earned a credit of up to \$1,500 toward volunteer hours required for the Neighborhood Matching Grant (NMG) to help execute one of the projects we identified.

To receive this credit, we'll submit a copy of the Developing Your Ideas worksheet with our NMG request. This credit will expire following the June 1, 2023 NMG application deadline.

### Process

Our board retreat was conducted by trained facilitators tasked to keep our conversations on-task, productive, and focused on achievable objectives. The process was designed to help capture the best of the past, the best of the present, and how we can add to our strengths to build a better future. The focus was:

- Analyzing neighborhood trends and conditions
- Developing strategic priorities
- Developing project ideas

The agenda for the day was as follows:

- Introductions
- Icebreaker
- Understanding your neighborhood - SWOT Analysis
- Developing Strategic Priorities
- Creating SMART Goals
- Idea Development – Time for participants for develop an action plan for goal achievement

## SWOT Analysis

We began our day with group discussion using the SWOT Analysis framework. The activity was intended to help us reflect on:

- What are the best things about our community and the people who live here
- What are our past successes
- Where are the potentials and possibilities

Our discussion helped us to find commonalities in our conversations.

## Strategic Priorities

After completing the SWOT analysis, participants began to brainstorm strategic priorities. This is where we began to define what is most important to us in order to achieve our vision. Strategic priorities are initiatives that will help us move closer to our vision of our community. The idea is to focus on a few things and do them very well as opposed to many things and missing the mark.

We started out thinking big and then narrowed down our focus. This activity led us to the following priorities/action items being identified as important within our community:

- Speed bumps
- Beautification
- Insect & rodent problems

The three priorities receiving the most votes are the strategic priorities that are most important for us to begin working on to achieve our vision. Within these three categories, there were three activities selected as most impactful toward achieving our strategic priorities.

The strategic priorities and activities are summarized on the following page.
